## MARKET QUOTATIONS.

REPORTS FROM ALL GREAT BUSI-NESS CENTRES OF THE WORLD.

Prices of Money, Bonds, Stocks, Grain, Tobacco, Cotton, Cattle, Country Produce, &c., Foreign and Domestie.

NEW YORK, July 26 .- The market ended in a draw, with the advantage slightly in favor of the bulls. The confused and irregular sharp declines and rapid recoveries alternating, commonly called a criss-cross market, continued through the day. With Congress adjourned and the tariff disposed of, professional speculators unloaded and sold short. Local reactions were helped by London profittaking, sales from that quarter amounting to \$20,000, thus dispelling the idea that buying movement might be expected because of to-morrow's settlement to cover recent supposedly short sales. A variety of reasons were assigned for London's pessimistic views, among which were the Senate's non-action on the currency message and the Japanese-Hawallan affair, but more generally it was attributed to their regarding the effect of the tariff settlement as already dis-counted. Prices in the local market reeded about a point. The Grangers espeally suffered on private reports of crop

benefited the market, having caused the cancellation of such selling orders as were to be executed at the market's opening to-day, provided prices were higher. Rathways rallied, but eased off again. Then crop advices were more favorable and widely distributed purchases of the Grangers, stimulated by to-day's early advance in wheat, benefited the general

Extensive buying of Tobacco, on the likelihood that the company would be freer from antagonistic legislation, caused ill the company's securities to rise sharp-

Reports of carnings for the third week in Reports of earnings for the third week in July were almost uniformly good. In some cases the increases were quite marked. Delaware and Hudson was strong, the buyers giving no other reason than general improvement in the coal trade, but it was reasoned on the Stock Exchange that important developments might occur at the meeting of the company's directors Wednesday. The tonnage of Reading for last week being the largest for a long time, brought that company's preferred stock good support. This renewed heavy buying revived old rumors of impending developments in the rumors of impending developments in the anthracite trade. Minneapolis and St. Louis preferred were bid up by the sup-porters of Rock Island.

All grades of sugar were advanced to-'day, but Sugar stock was subject to bear day, but Sugar stock was subject to bear pressure most of the day. After an early drop of 13-4, a partial recovery, it fell again, and when below 142, the market being full of stop-loss orders, certificates were forced to the lowest oint of the day—139 5-8.

The intelligence that a million dollars In gold would leave Australia on Monday for America was a significant feature of the late news; another was a little flurry

in call morey, it being quoted on a small transaction at 11-292, although there was an abundance of money loanable at 1 per cent.
The market closed with irregular changes. The total sales of stocks for the day amounted to 443,995 shares, in-

which sold at prices ranging from 6 to 9 cents.

Darks—Although fewer offerings of both new and old this week, the market from first to last showed less animation than for many weeks past, particularly on better grades of leaf, showing at the close a decline of 4c. on medium and good logs; ½c. on common and medium leaf, while good closed from 1 to 1½c. lower, which resulted in very heavy rejections. Quotations revised accordingly.

The Growing Crop.—Travelling agents for the Warehouseman, who have returned from different parts of the Burley country, report the prospects of the growing crop as much more discouraging than the Trade here had any idea of. The crop shows very great irregularity in growth and condition, and from the long-continued dry weather in many of the

growth and conditions. At the continued dry weather in many of the leading counties a light crop can only be forthcoming, and, from so much late planting, will almost certainly be different in color, but with probably more body. NEW YORK PRODUCE MARKET. NEW YORK PRODUCE MARKET.

Colonel A. L. Symmes, the Cincinnati (O.) tobacco broker, is visiting the Trade to-day, with a beaming geniality always indicated in his strong face. He is heartily welcomed here always.

Colonel J. T. Spencer, formerly in the commission business, now farming in Charlotte county, paid Shockoe Slip a visit to-day, greeting the few old friends left in the Trade.

Colonel W. M. Cary, of Randolph, Va., S. in the city, and is much rejuvenated by his country residence since giving up the tobacco business here.

At a meeting of the stockholders of the Dudley Cigar and Cheroot Company, held on July 30th, at their offices, in the Chamber of Commerce, the following officers were elected: W. W. Astell, president; William Tray, vice-president; J. W. Balley, scoretary and treasurer, who, with Messrs, Daniel Grinnan, H. C. Laughton, and S. J. Dudley, constitute the Board of Directors. The company has renied the spacious factory No. 1917 cast Franklin street, and propose to push the business on an extended basis, manufacturing cigars, cheroots, and all-tobacco cigaretes.

CHICAGO, July 25.—Wheat collapsed to-day, after a brief struggle, in which the bears came off victorious. September was forced down from 744 to 72c., and closed at 724c., a net loss of 5-8c. Sensational advices abroad caused the opening spurt, but accumulating stocks at primary points, and reassuring advices from the spring-wheat belt overcame outside lafinences. Corn was weak likewise oats, on favorable weather, and increased country offerings. Pork closed a shade lower. Lard and ribs advanced slightly. Leading futures ranged as follows:

The appointment of Colonel James D.
Brady as Revenue Collector for this district to succeed Mr. William Ryan was
not unexpected, and, on account of Colonel Brady's past good record, is very
acceptable to the Trade.

The Hopkusville and Clarksville markets report under date of July 24, 1897,

was again very poor this week, with very
little real good leaf appearing on sale;
but whenever such did appear it sold at
outside prices, especially everything suitable for 'regie' purposes. Lags were as
strong as ever, and many of the better
ones sold up to blee. From figures above,

have received it. its hogsheads on the two markets.

Without an explanation, our customers may think that the crop of 1896 was an average one in size. We will add, however, that there has been more tobucco shipped from one market to another, and from one warehouse to another and we dare say that fully 10,000 hogsheads have been handled in this way, and should not be counted as actual receipts on our two markets.

The offerings of new crop were again very large, even larger than last week. All grades and styles met with a very active demand on Thursday afternoon, when irregularities and easier prices showed on common smokers and red-tip fillers, which have been all along remarkably strong. An easing off, however, on the latter styles is thought to be only temporary. Fillers from 5 to 8 cents were lower, from 8 to 12 cents. Farmers' packages were

While business in cotton futures was unusually slack to-day, the market showed unmistakable signs of strength. Opening steady, at an advance of 4,65 points, prices further improved 1,66 points, with the market finally steady, at a net soin of 4,69 points. Better news from Liverpool than looked for, reports of damage by continued heat, dry weather in Southern and Central Texas and portions of Arkansas, and a hardening tendency on the part of spot markets, both in this country and abroad, all tended to check selling and send shorts to cover. A number of attempts were made to raid the market, but at no time throughout the session were there evidences of weakness. Several slight reactions followed selling for profits by timid longs, but a rally inevitably followed. The bulk of the business done was for local account, with October receiving chief atjention. Considerable switching of the August option to the more remote positions was a feature. New Orleans and foreign inpition to the more remote positions was feature. New Orleans and foreign in feature. # Central of Georgia

Railway Company. PRINCIPAL DUE NOVEMBER, 1945. INTEREST PAYABLE MAY AND NO-

VEMBER.

The Central of Georgia Railway Company operates some fifteen hundred miles of railway, reaching from Savannah, Ga., to Augusta, Macon, Atlanta, and most other important cities and towns in the State of Georgia; also, to Montgomery and Birmingham, and numerous other places in the State of Alabama. Close affiliated with the company is the Ocean S. S. Co., operating the well-known "Savannah Line" of steamers between New York and Savannah. Captain G. J. Grammer, General Traffic Manager of the Lake Shore and Michigan Southern Railway Company, a foremost authority on traffic matters, says in a special

"This property is so located geographically as to practieally hold the key to the ratiroad situation in the south."

"I can see no reason why this property cannot, under the most adverse conditions, and at all times, earn sufficient net money to take care of its fixed charges, and with favorable conditions, in a few vears, earn interest on its income

bonds of all classes."

The strong points in favor of the bonds are these: I. In the States in which this railroad is located healthful business conditions obtain. As a result of several years of saving and economizing, the people are out of debt. Their local industries are prospering. The present cotion crop promises to be large. 11. The management is honest and capable.

III. The different properties now comprising the Central of Georgia System have earned over a period of more than ten years an average net income of fixed charge is \$1,855,000. The surplus this year, after some unusually heavy ex-penditures for betterments, will amount to about \$300,000, The accounts are in charge of Mr. C. W.
